

Boko Isaac

Full-stack engineer

Six years shipping full-stack products, eight of them live. Mostly TypeScript and Node.js, React and React Native, Supabase and Postgres, and AI where it earns its place.

// Experience

2025 to Now

Lead engineer

Quality Installs Co. · Remote

Leads QPIMS, QPAS and QP Invoicing: jobs, crews, installs and invoices for the field and the office.

TypeScriptReact NativeSupabase

20XX to 2025

Full-stack engineer

Elivate · Remote

Built the Elivate Wallet across web and mobile, from the API and data model to the screens.

Node.jsReactReact Native

20XX

Freelance full-stack developer

Freelance · Remote

EduSkillUp, a learning platform. Roudio, a media product. A book read-along app.

TypeScriptReactNode.js

20XX

Web developer

Agency clients · Remote

Websites and landing pages for agency clients. Where the habit of shipping every week started.
